Challenges I faced & their solutions

Project Set Up - security key. Oof

Completely deleting and restarting 🥲

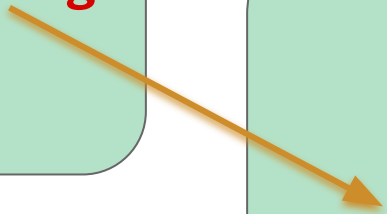

Data Structure - focusing on wrong MVP… Leading to infinite loops and data type errors

Looking back at my Data Diagram. Reworked

Challenges I faced & their solutions

Challenges I faced & their solutions

Moving on finishing a repository. Like starting to building a house on the second floor.

Recognized I was focused on wrong feature - Scaled back to move forward

Beyond the MVP

Check-in to an Interactive Feelings Wheel - UI

Extend saving and uploading for Pet Love Bomb images

Make it secure! PASSWORDS and authentication

THANK YOU!!

Self Love Bombs

Because love only needs a spark.
